Puerto Rico Psychedelic Rescheduling Impact Assessment

Charting a New Path for Therapeutic and Societal Transformation

The rescheduling of psychedelic substances in Puerto Rico presents a unique opportunity to revolutionize healthcare, boost the economy, and foster academic advancements.

The proposed impact assessment provides a comprehensive understanding of the potential benefits, challenges, and strategies required to help in the rescheduling effort.

We are asking for an initial \$21,000 to help realize the legal and policy analysis.

With the report, we can help legislators make an informed decision and help Puerto Rico thrive.

In the face of two decades of unprecedented challenges, Puerto Rico's mental well-being has been significantly at risk.

Recognizing the urgency to address this, Pravan Foundation, an affiliate of Pravan Clinic and Pravan Health Group, believes it's time to take decisive action.

Partnering with the Pravan Foundation, Delphi is poised to spearhead this transformative initiative. We bring our extensive expertise and a dedicated team to ensure a thorough and insightful impact assessment.

Our goal is to provide Pravan and its funders with a comprehensive roadmap that illuminates the potential benefits and strategies of psychedelic rescheduling in Puerto Rico.

Legal Precedent & Implementation

Societal & Mental Health Impact

Economic Impact

Academic & Research Opportunities

Step 1: Understanding the Legal Landscape

Setting the Stage for Psychedelic Rescheduling in Puerto Rico

Legal & Policy Precedents

Delving into the legal frameworks, models, and challenges faced by other jurisdictions in their rescheduling efforts

Puerto Rico's Current Framework

Mapping out Puerto Rico's current legal stance on psychedelics and pinpointing areas for potential amendments

Federal & International Alignment

Evaluating how Puerto Rico's potential rescheduling aligns with overarching federal laws and international agreements

Stakeholder Engagement

Documenting insights and feedback from pivotal stakeholders to ensure a comprehensive and collaborative approach

We're seeking \$21,000 to support a legal and policy impact assessment of psychedelic rescheduling in Puerto Rico

1

Psychedelics have the potential to revolutionize healthcare in Puerto Rico, addressing the island's unique mental health challenges

2

Psychedelic rescheduling could create new economic opportunities and boost Puerto Rico's biotech and research sectors

3

A comprehensive impact assessment will provide policymakers with the evidence they need to make informed decisions about psychedelic rescheduling

Step 1 - Legal & Policy Assessment
\$21,000

Go / No Go Decision

Step 2 - Full Rescheduling Assessment
\$62,000

Invest in Puerto Rico's future and support our impact assessment of psychedelic rescheduling

Step 2: Beyond the Law: Social & Mental Well-being

Assessing the Broader Implications on Puerto Rican Society and Mental Health

Public Perception

Analyzing societal views on psychedelics and suggesting public education strategies

Equity Analysis

Identifying challenges and strategies for equitable benefits distribution

Youth Education

Blueprint for integrating psychedelic safety education in schools

Cultural Practices

Capturing indigenous practices related to psychedelics and integration suggestions

Ethical Guidelines

Drafting protocols for patient safety and ethical considerations in PAT

Therapeutic Review

Evaluating psychedelics' potential in addressing mental health challenges

Integration Roadmap

Strategy for incorporating Psychedelic-Assisted Therapies into existing health systems

Training Overview

Assessing and recommending training protocols for PAT professionals

Accessibility Analysis

Identifying challenges and solutions for broad therapy access

Step 2: Unlocking Economic Potential

Exploring the Financial Upsides of Psychedelic Rescheduling in Puerto Rico

Global Positioning

Assessing Puerto Rico's potential leadership in psychedelic research and therapy

Investment Strategy

Crafting a blueprint to attract significant investments in psychedelic research and therapy

Job Forecast

Estimating job creation across sectors due to rescheduling

Diversification Analysis

Evaluating the synergy between rescheduling and Puerto Rico's biotech/pharma sectors

Tax Projections

Estimating potential revenue from taxation and regulation of psychedelics

Training Blueprint

Proposing educational programs to support emerging industries

Infrastructure Needs

Identifying infrastructure needs for the growth of psychedelic sectors

Societal Impact

Gauging broader economic benefits, including medical cost savings and productivity boosts

Step 2: Advancing Knowledge & Innovation

Capitalizing on Puerto Rico's Psychedelic Rescheduling for Knowledge Advancement

Research Avenues	Educational Programs	Collaborations	Funding Guide	Global Leadership
Detailing potential studies in psychology, neuroscience, and pharmacology	Crafting recommendations for new academic programs in psychedelic studies	Outlining partnerships with biotech companies and global research entities	Analyzing potential grants and funding strategies for psychedelic research	Roadmapping Puerto Rico's ascent as a global research leader in psychedelics
Ethical Guidelines	Innovation Analysis	Student Engagement	Community Impact	Regulatory Guide
Establishing standards for responsible and ethical psychedelic research	Evaluating commercial opportunities and innovations from psychedelic research	Gauging student interest and proposing strategies for increased enrollment	Setting guidelines for research alignment with local community values	Providing an overview of compliance requirements for psychedelic research

Implementation Timeline

Going from Impact Report to Rescheduling

Psychedelic Rescheduling Impact Assessment Report	Legislative Efforts	Regulatory Changes	Implementation & Monitoring
Q3 2023 - Q2 2024	2024 - 2025	Q1 2026 - Q3 2026	Q4 2026 - onward
Dedicated Team (Q3 2023)	Public Awareness Campaign (Q2-3 2024)	Regulatory Review (Q1 2026)	Monitor Effects of Rescheduling
Report Step 1 Funding (Q4 2023)	Identify & Collaborate w/ Legislative Allies (Q2-4 2024)	Prepare Industry & Healthcare (Q1-2 2026)	Gather Feedback Stakeholders
Report Step 1 Generated (Q1 2024)	Draft Legislation (Q1 2025)	Rescheduling Approval (Q3 2026)	Adjust Regulations
Report Step 2 Funding (Q1 2024)	Lobby Support (Q2-3 2025)		
Report Step 2 Generated (Q1-2 2024)	Introduce Legislation (Q4 2025)		

Our Dedicated Team

Uniting Expertise for a Transformative Cause

At the heart of this groundbreaking initiative lies a passionate and skilled team, a collaboration between the Pravan Foundation and Delphi.

The Pravan Foundation, with its deep roots in Puerto Rico, brings a profound understanding of the island's unique challenges and opportunities. Their commitment to enhancing mental well-being, especially in the face of persisting adversities, is unwavering.

Partnering with them, Delphi offers a wealth of expertise in research, strategy, and project management. Together, we're united in our mission to explore the potential of psychedelic rescheduling, aiming for a brighter, healthier future for Puerto Rico.
